

## **Group information**

Group #1

Phuoc La, UID: 104567852

Gabriel Pawlowsky, UID: 204486619

## **Starting the server**

`./server port window_size loss_probability corruption_probability congestion_control (1 or 0)`

Example: `./server 5000 5120 .1 .1 0`

## **Starting the client**

`./client hostname port file window_size loss_probability corruption_probability congestion_control (1 or 0)`

Example: `./client 127.0.0.1 5000 5120 .1 .1 0`

## **Dividing the workload**

Gabriel worked on the server and Phuoc worked on the client and the extra credit. We both debugged.
